

Helping nonprofits deliver on their mission

Unit4's Nonprofit FP&A solution helps organizations maximize available funding, build greater trust and accountability, and support making more impactful decisions.

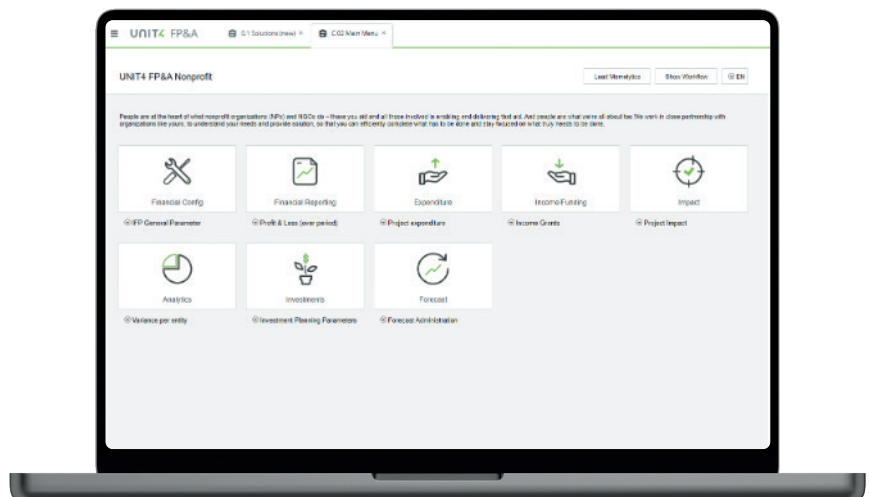

The Unit4 FP&A planning solution has been specifically designed with the financial planning and analysis needs of nonprofits in mind. At its core is a powerful pre-configured integration to Unit4's ERP to better connect Nonprofit operational data with the strategic planning capabilities of FP&A. This helps support tasks such as importing financial data, master data, and structures more efficiently, while exporting planning data and drilling down to ERP transactional activity becomes simpler.

The Unit4 FP&A Nonprofit model also includes:

- Organizational-wide multi-year financial planning, budgeting, and forecasting
- Income and funding drilldown to track grants, awards, sponsorships, and donations

- Allocate funding to named projects from specific income sources
- Project expenditure monitoring for personnel, procurement, travel, and administration costs
- Overhead expenditure analysis for fundraising and administration costs

Nonprofits become more empowered to plan strategically, through an intuitive, flexible cloud-based financial planning and analysis platform. This helps you focus more time on delivering the impact needed to achieve your mission, while monitoring programs, grants, and funding with ease.

Nonprofit specific subplans planning is also supported for fully integrated planning and reporting, along with:

- Surplus & deficit analysis
- Balance sheet reports
- Cash flow monitoring
- KPI tracking
- Scenario management
- Reporting & dashboarding
- Greater transparency and agility to support donor reporting regulations
