

Your Unit4 Financials by Coda Cloud journey starts here

Uncover the different steps you need to take to get up and running in the Cloud.

A high-speed journey to the Cloud

A transition process with minimal disruption

A clear project overview with full transparency

Step 1: Engaging

- ✔ **Define your needs**
Before starting, we'll work with you to identify the available information you have about your organization to set your migration project's initial scope and needs.
- ✔ **Cloud migration assessment**
Your Cloud journey begins with a **Cloud Migration Assessment**. This evaluates how ready you are to move to Cloud, creating a detailed migration proposal with next steps.

Doing this gives you a complete insight into your current solution environment and a clear path for you to make a move over to Cloud.
- ✔ **Solution agreement**
Following the assessment, we provide you with a clear onboarding plan that includes your migration project with timeframes and responsibilities clearly defined upfront.

Your solution evaluation identifies usage details like:

- ✔ Transactions and intensity overview
- ✔ Number and types of customizations
- ✔ Number and types of interfaces
- ✔ User numbers
- ✔ Processes for non-standard functionality
- ✔ Different module usage

Step 2: Onboarding
