

## Merging businesses without disruption

Bravida is Scandinavia's premier integrated supplier of technical installation and service solutions for buildings and plants.

### INFO

**INDUSTRY:** Professional Services  
**SIZE:** 8000 employees  
**LOCATION:** Scandinavia  
**PRODUCT:** Unit4 Enterprise Resource Planning (ERP)

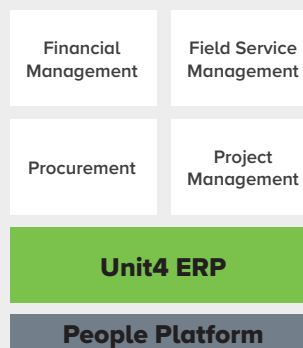

## The Challenge

As a multi-segment professional service organization with disparate locations, Bravida was not consolidated in terms of culture, processes or ERP systems. It needed a solid technical foundation to process all transactions and manage business needs.

## How did Unit4 help?

- The Unit4 ERP data model serves as the primary information and reporting hub throughout three countries
- Pricing, invoicing and reporting are done seamlessly, and in lockstep
- Seamlessly handles significant change without major disruption to sync the data pools, people, resources and billings systems etc

## Achievements

### Change without disruption

Internal IT team manages over 20 mergers without costly external contractors or business disruption.

### Strategic growth at strategic speed

Complex organization now underpinned with technology that moves at their speed.

### Major project achievements

Siemens Installation AS merger easily managed bringing together teams and data.

**“Business as usual’ is the top priority for any company operating with multiple moving parts and a changing organizational structure... The [Siemens] merger was done surprisingly fast and smoothly... For us it’s not a surprise that Business World [Unit4 ERP] can do this. “**
