

Unit4 streamlines administration processes at Peab to help it build and grow

Peab AB is a construction and civil engineering company headquartered in Sweden. The third largest construction company in the Nordic region, Peab's annual revenues exceed \$6 billion, with approximately 130 regional offices and approximately 16,000 employees in Sweden, Norway, Denmark, and Finland.

INFO

INDUSTRY: Construction

SIZE: Approx. 16,000 employees; \$6 billion revenues

LOCATION: Headquarters in Sweden

PRODUCT: Unit4 Enterprise Resource Planning (ERP)

The Challenge

Peab required a modern ERP platform to replace six separate databases across the Nordic region. The goal was to create a unified, connected view of data across the organization, with single data entry. It was challenging to simultaneously manage more than 6,000 transactions a day across 150 separate data entry points.

How did Unit4 help?

- Peab's prepared and committed team collaborated easily with Unit4's experienced and proactive consultants to architect, develop, and deploy the ERP platform.
- Delivered on-time, on-budget implementation across the Nordic region.
- Adapted the way Peab works to better manage complexity and focus on more strategic concerns.
- Transformed processes and data control without increasing risk.
- Winner of Sweden's ERP Project of the Year.

Achievements

Streamlined reporting

Intuitive user experience, rapid integration, and single data view enable faster, more trusted reporting and decision-making.

Drives business growth

Intelligent, unified view of data in Sweden, Norway, and Finland drives improved customer experience and business growth.

Agile, adaptive processes

The full power of digitalization accelerates processes and liberates resources to focus on strategic, value-added tasks. Continued partnership with Unit4 Application Management Systems will guide Peab as it consolidates future acquisitions and adds locations.

“Together, Peab and Unit4 successfully delivered the anticipated results on time, on budget, and with high spirits. People actually requested to be part of the project. Given the project’s size and complexity, this is truly remarkable!”

Klas Antoni, CIO, Peab
